Organization

Annual Budget (Research and Development Division)

Activities in FY2022 (Research and Development Division)

- In FY2022, we conducted 26 research and development works for management of all categories of radioactive waste. Nineteen of them were conducted with external funds (Eight from Ministry of Economy, Trade and Industry (METI), one from Ministry of Education, Culture, Sports, Science and Technology (MEXT), ten from the electric utilities and others).
- For dissemination of outcomes and information on radioactive waste management, we conducted organization of lectures·seminars, release of the newest information through our website, publication of RWMC topics and RWMC annual technical report, and contributions to academic conferences and journals.
- We performed information exchange with foreign implementing bodies and research institutes on research and development, safety regulations and standards, and situation of repository programs under the collaboration agreements.
